

# The most...

**Affordable** screen system for Venlo greenhouses

## ValkClip

This tried-and-tested system has more than proven itself over the past years. The screen cloth for ValkClip (VC) is fixed to the screen profile using stainless steel cloth clips. The affordable screen profile and accessories work extremely well in situations where issues such as mounting time and light gain are not top priorities.

### Unique core components ▼

#### ValkScreenProfile

The **ValkScreenProfile** offers excellent functionality at an affordable price, ideal for situations where installation time and light gains are not top priorities.

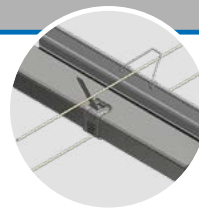

- ✓ lightweight profile
- ✓ various standard widths and lengths

#### ValkTrussClip

The **ValkTrussClip** fixes the screen cloth to the truss using a very strong connection.

- ✓ improved clamping force
- ✓ prevents wear polyester wires
- ✓ compact

#### ValkWireGuide

The **ValkWireGuide** allows the profile and the polyester wires to move independently.

- ✓ easy to attach
- ✓ keeps the screen cloth clean
- ✓ prevents wear on the ValkScreenProfile

 ValkWireGuide

#### ValkScreenClip

The **ValkScreenClip** is fixed to the edge of the profile and does not have to be changed when changing the screen cloth.

- ✓ minimum package size for maximum light gain

The drive ▼
